* Singapore Math *

New!

Did you know that Singapore students ranked first in the world in math and U.S. students ranked last amongst industrialized countries? **Singapore Math** features a proven process of problem solving by following a concrete to pictorial to abstract approach. It utilizes extensive pictures to graphically decompose, represent and solve complicated multi-step math problems which U.S. students don't learn how to solve until two or more grades later. Singapore Math is so successful and compelling that California adopted it as a standard math curriculum in 2007. This course covers topics in whole numbers, fractions, decimals, percentage, ratio, measurement, geometry, and data analysis. Many hands-on activities will demonstrate and present deeper understanding of math abstracts. Join us to discover a more effective and FUN approach to learn math and dramatically improve your child's math proficiency.

Pre-Algebra

Advance your student's math level! In Pre-Algebra, C students get intensive practice with the fundamentals of pre-algebra and develop a solid foundation for future math success. Topics may include variables, integers/expressions, exponents, factorization, ratios, etc. Strong emphasis on critical thinking. Different topics covered each quarter. Experienced instructors, small class!

Age	Day	Time	Dates	Fee*	Classes
11-12	M-Th	4:45-6:45	6/21-7/15	\$595	15

**No class 6/25, 7/02, 7/05, 7/09

*Material Fee \$30

Algebra 1

Advance your student's math level! In **Algebra I**, students get intensive practice with the fundamentals of algebra and strengthen skills for future math success. Topics may include algebraic expressions, linear inequalities, quadratic equations, polynomials, etc. Strong emphasis on critical thinking. Different topics covered each quarter. Experienced instructors, small class!

Age	Day	Time	Dates**	Fee*	Classes
12-14	M-Th	4:45-6:45	6/21-7/15	\$595	15

**No class 6/25, 7/02, 7/05, 7/09

*Material Fee \$30

Math Competition

AMC 8 [American Math Competition 8]

Succeed in AMC 8! **AMC 8** helps students prepare for the AMC 8 competition by exploring different topics and/or problem solving strategies each week. Topics may include logic, algebra, geometry, number theory, statistics, etc. Detailed feedback helps students improve skills significantly. Different topics covered each quarter. Experienced instructors, small class!

Age	Day	Time	Dates	Fee*	Classes
11-14	M-F	1:00-4:00	8/02-8/06	\$395	5

Math Olympiads/Enrichment

Succeed in **Math**! Our class helps students strengthen math intuition, master major strategies in creative problem solving, and prepare for the **Math Olympiads** competition. Topics may include sequences, geometric configurations, logic, etc. Students become proficient in problem solving techniques and discover the fun of math. Different topics covered each quarter. Experienced instructors, small class size!
